

## AW inlet 110-80-100

Coupling piece for a combined water and air inlet

Only 1 inlet for both aeration and irrigation system. To be connected to the open air with an end cap suitable for a 110mm connection. Place the side outlet (irrigation) at the same height or higher than the horizontal irrigation system.

Material : PVC  
Color : Gray green  
Dimensions : 40 x 11 x 25 (H x L x W)  
Weight : approx. 2.2 kg

Productname : AW inlet 110-80-100  
product nr. : TRS A 2 10008

Manufacturing in ISO -certified company. An ISO 9001 certificate shows that your organisation is customer-focused and committed to delivering consistent quality products.

## AW inlet 110-80-100

Coupling piece for a combined water and air inlet

### Water flow rate

*Amount of water that flows out on the side.*

9 m<sup>3</sup> per uur

### Connection options

*The AW inlet can be connected to the following pipe diameters.*

Top : 110 mm  
Side : 80 mm click sleeve  
Bottom : 100 corrugated pipe

### Leave filter

*Prevents system pollution*

Type : removable  
Layer thickness : 15mm

### Air supply

Open gas diffusion from the top to the side and bottom. Air opening to the bottom is also a water overflow when the irrigation tube is completely filled.
